

Complete T1 Solutions

Pathway's Complete T1 Solutions for Business

Starting at \$699 per month for unlimited high-speed Internet access including router, loop, security and many other features, Pathway Communications provides the best-priced and most complete T1 solutions in the GTA. Backed by a leading service level guarantee, Pathway's T1 solutions deliver secure, reliable and lightning fast Internet access (at speeds up to 1.5 Mbps both upstream and downstream) to businesses via a high-quality digital loop. Best of all, a Pathway T1 solution includes hassle free onsite installation and 24/7 management of the connection and router which lets you get back to managing your core business instead of your connectivity.

Pathway's Complete T1 solutions are ideal for businesses that:

- Require substantial upstream speeds or fully symmetrical access.
- Need to host Internet servers.
- Are interested in virtual private networking or telecommuting.
- Demand service guarantees for their Internet connectivity.
- Are outside the reach of Pathway's high speed ADSL based solution.

A host of useful features

Unlike other T1 providers, Pathway delivers a *complete* Internet solution to your business. Our fully managed T1 solutions are backed by a leading service level agreement (SLA) and include a suite of value-added features that you won't find anywhere else at no additional charge.

| VALUE-ADDED FEATURES | PATHWAY | OTHERS |
|--|---------|--------|
